Mar. 25, 1937

United States Counsel,
Buenos Aires,
Argentine Republic, S.A.

Dear Sir:

Would it be in your province to ascertain for us either from the Mint or the Treasury Department as to whether 20 centavo, 10 centavo and 5 centavo pices were struck in 1935, 1936 and 1937.

We would like the information relative to each value; also if during those years any other denominations were made, special coinages, etc. Our records show that nothing but nickel coins of these three denominations have been made for 40 or 50 years.

Very truly yours,

Curator
